SUMMARY

I am a proactive Unity developer concerned with efficiency, future-proofing, and reliability of game systems. Through my experience of 2 internships and over 5 projects, I have shown initiative in development in creating 3 different systems that allowed designers to save hours of playtesting.

SKILLS

C#, Java, HTML, CSS, JavaScript, Node.js, React, Lua Unity Engine, .NET, Git, Visual Studio Code, Jira, Data Structures, Scrum and Agile Methodologies, Design Patterns

WORK EXPERIENCE

Lionheart Studios, LLC

Apr 2026 – Present

Gameplay Programmer Intern

- Gameplay programmer for an unannounced game with a planned release on Steam.

Games For Love

Feb 2026 – Apr 2026

Gameplay Programmer Intern

- Led enemy spawning development in a team of 8 programmers, utilizing Unity to create a tunable spawning system, saving designers hours of playtesting.
- Collaborated with other developers for integration with player movement, item spawning, and game loop systems.

University of Saint Francis – College of Health Sciences

Oct 2024 – Oct 2025

Immersive Simulation Developer

- Created medical imaging and training scenarios for the College's immersive laboratory.
- Utilized the lab's proprietary software and Unity to develop web-based applications.

EDUCATION

University of Saint Francis

Fort Wayne, Indiana, 2022 – 2026

Bachelor of Science in Game and Application Development

Cumulative GPA: 3.99

- Programming Concentration
- Minors in Computer Science and Film

PROJECTS

Uphill Battle

Unity 3D, 2025

Lead Programmer

- Spearheaded level development with a completely custom procedural generation tool with over 10 settings.
- Built a dynamic AI decision tree that allows enemies to consider hundreds of scenarios before taking action.

30 Minutes or it's Free

Unity 3D, 2025

Lead Programmer

- Tasked with creating tight and responsive player movement to compliment parkour-focused level design.
- Created a patrolling NPC pathing tool, which allowed designers to create 5 extra levels than originally planned.
- Used custom state machine system to centralize player controls, animations, and sound effects.

AWARDS

Innovation Award – Apr 2026

Best Game Demo – 30 Minutes or it's Free – Apr 2026

Excellence in Algorithms – Apr 2025

Leadership in Game and Application Development – Apr 2025

Best Game Demo – Fortune Queller – Apr 2025

Best Game Demo – Toilet Time Traveler – Apr 2024

Leadership and Service Award – Apr 2024

Outstanding Freshman Award in Game and Application Development – Apr 2023
